Some things you just know*

### **The Gift From Heaven Bookmark**

The Poem "A Gift From Heaven"® reminds us that those we love in heaven are forever a part of our hearts and lives.

Their love is with us always. Although we feel loss we have reason to rejoice for those we love in heaven are now complete. They are love.

We hope as you look past the words to the artwork of the ethereal sky you are reminded of those days when you gazed at the clouds to see what God had drawn for you that day.

We hope the angel in flight reminds you that the one you love is now watching over you in a new and spectacular way. The dove helps your heart feel the peace and perfection of heaven. While the bow reminds you that you are forever tied by love.
